Course 8 - embedding 21CLD in practice

URL: <https://education.microsoft.com/GetTrained/21CLD-8>

Practice & Certify

New Exams available January 4, 2018

Practice & Certify – locating a Testing Center for everyone (in Washington state)

The Washington State Library funds Microsoft Imagine Academy licenses for every public and tribal library, and the community and technical colleges

Each Imagine Academy subscription **includes** 10 MCE exam vouchers for Educator Development. These can be redeemed from the Imagine Academy *Member site* (member.imagineacademy.microsoft.com)

FEW libraries use all 10 and are happy to share, or I can redeem/supply you with vouchers.

Practice & Certify – locating a Testing Center for Middle and High School Teachers

OSPI funds Microsoft Imagine Academy licenses for every public high school in the state, and for most middle schools

Each Imagine Academy subscription **includes** 10 MCE exam vouchers for Educator Development. These can be redeemed from the Imagine Academy *Member site* (member.imagineacademy.microsoft.com)

Practice & Certify – now that you've located a Testing Center

Exams are given using the same Console 8 software used for the Microsoft Office Specialist (MOS) certification – if the school offers MOS they can easily offer the MCE exam

You may need to remind your Test Proctor that they must first update Console 8 software for MCE exams

Additional information on the MCE certification can be found at: <https://certipoint.pearsonvue.com/Certifications/Microsoft/MCE/Overview>
