

Planning for your First Coding Program or Camp

What age/grade are your students?

Which course works best for your students?

What resources will you need? If you don't have them, how will you get them? Include technology needs for Leader and Students, promotional materials, etc.

Resource	Where it's coming from

What is your target date to implement?

Who are your stakeholders and what role will they play?

Stakeholders	Role

Prepare your timeline to implement a course (include your prep time, promoting the program, communicating with stakeholders, etc.)

Activity	Timeframe	Who/What Resources are Involved

What might go amiss? Identify potential setbacks and roadblocks:
