Register for 2023 WA Library Legislative Day!

Registration is open for the 2023 WA Library Legislative Day, sponsored by WLA. We are excited to share that we will be returning in-person to Olympia this year!

This year, we are focused on SB 5102, in relation to our grassroots #K12Librarians4AllWA campaign, to ensure ALL students in ALL districts have access to a school library information technology program with a trained, certified teacher-librarian. Issues such as intellectual freedom, e-book licensing, and levy passage requirements are also expected to be on this year’s agenda.

By attending WA Library Legislative Day, you can expect to:

- Connect with library supporters from all types of libraries around the state.
- Hear from special guests 2023 WLA Board President Johanna Jacobsen Kiciman, Washington State Librarian Sara Jones, and Washington Secretary of State Steve Hobbs.
- Attend sessions and hear testimony from fellow library professionals along with WLA lobbyist Carolyn Logue.
- Meet with State legislators and their staff to discuss the value of libraries and the impact laws have on them.
- Understand how to track and search for bills, give effective testimony, and advocate for libraries, to better support them in years to come!

This free event is a great way to become involved in library advocacy and help WLA push its legislative goals over the finish line!

If you have any questions about Legislative Day or WLA's 2023 agenda, please contact the WLA Office at info@wla.org!

As libraries across the state and country continue to face book banning efforts, especially those targeting materials and programming with LGBTQIA+ and BIPOC representation, we all need to ask ourselves whether we're prepared for challenges within our own libraries.

Hear a conversation between three panelists who have faced these challenges directly: an author who writes books about and for queer youth, a retired librarian and professor with a long career of national leadership and intellectual freedom advocacy, and a teacher librarian who recently made headlines by fighting censorship attempts at his middle school.

If you have any questions, please contact the WLA Office at info@wla.org or (206) 823-1138.

The ACRL Distance and Online Learning Section (DOLS) Conference Program Planning Committee is soliciting speakers for their panel presentation, "Learners of 2030: Preparing for Literacies and Skills of the Future." The program description is as follows:

Abstract: All types of libraries are shifting workflows and materials to teach patrons the expertise needed for job skill sets required to be successful in careers that do not yet exist. Join this panel session to hear from a diverse set of librarians on their perspectives, resources, and services related to needed skills, literacies, technologies, and the ways digital and online learning can be leveraged for the future. News & Notes

New WSL Circulating Kit Open for Reservations: Welcoming Libraries

The Welcoming Library is a pop-up community conversation on immigration. That conversation is driven by a collection of acclaimed picture books featuring New Arrival and New American families.

Readers of all ages “meet” these families on the page and explore the commonalities of all families with embedded discussion questions and companion programming / education materials. The collection — with its pop-up display unit — packs into a crate and travels between schools, libraries, and community centers in a given region, building an environment of Welcoming and Belonging.

For more information about what the circulating kit includes and how it can be helpful in your library, visit here. Make a reservation for the kit here.

Kits will stay at a library for up to six weeks then they must be sent to the next location. You are welcome to borrow it for between 1-6 weeks!

If you are hoping to send this kit between locations in your district using internal mail and need it for more than six weeks, please email STEAM@sos.wa.gov.

The Learning Curve

Connecting to Connections Care:
Sustainable and Passive Ways to Improve your Collection Environment

As temperatures rise globally, we are seeing a greater push for our organizations to be more sustainable. From city ordinances to the White House 2030 Initiative, we are all challenged to do better, and now is the time to act.

This webinar will describe some of the energy saving strategies that cultural heritage organizations currently implement to help reduce energy use. These can range from mechanical system shutdowns to lighting adjustments.
Additionally, this webinar will discuss passive strategies that institutions can implement to improve collections environments. The strategies suggested representing some of the ways that spaces can be evaluated and monitored without significant cost or impact on the space.

Join Matt Beckstrom and Brady Lund for this webinar on privacy audits. Matt and Brady will provide a primer on library privacy audits for ensuring the physical and electronic privacy of patrons, including understanding data flows, access, and policy issues. They will further discuss how to train your staff and patrons to be “risk aware” and contribute to the vitality of the library.

In 2022, recent library science graduates looking for jobs ranked a positive, healthy workplace culture as being an even more important attribute than salary. If you haven't looked at your organizational culture recently, it may be time for a refresh.

Brought to you by Fast Forward Libraries and presented by Jeannie Dilger, this session will look at what culture is, how to get staff involved in creating or revising your culture statement, and ways to implement your culture throughout the library.

This webinar will take place Feb. 22, 8 a.m. Please register here. This webinar will be recorded and made available for free for 30-days after the session. If you cannot attend, please register to receive the recording link. After 30-days, the recording will be archived here.
