WLA Advocacy Corner
Support Build America's Libraries Act

The WLA Office has received notification from the American Library Association (ALA) concerning the Build America's Libraries Act (S. 127 /H.R. 1581), which includes $5 billion in funding for library construction and renovation. In the coming weeks, Congress will prepare legislation to make massive investments in our nation's infrastructure and communities, and we must ensure that libraries are not left out. We must take action to urge Congress to move forward with a package that includes these critical resources highlighted in the legislation.

Please consider contacting your legislators in Congress and urging them to include funding for library infrastructure. You can use the ALA's online form to both find and contact your legislators.

Please contact the WLA Advocacy Committee or WLA Office with any questions.
