Submit a Proposal for the ALD/ACRL-WA & ACRL-OR Conference

Present with us on Friday, October 17 at Lower Columbia College at the [2025 ALD/ACRL-WA and ACRL-OR Conference](#)!

The theme of the conference, ***Leading from Our Values*** will dive into what it means to lead from intention, authenticity, and purpose. Our committee selected the theme to challenge us to consider how values—both organizational and personal—inform how we teach, research, collaborate, advocate, and lead, from every role in an academic library and every stage of a career. We will explore the ways we shape these values and how values shape our work in turn, even while facing pressure to compromise. By identifying and centering our values in these conversations, we'll be able to re-calibrate our compass and find our path forward.

This committee welcomes proposals on any topic relevant to academic libraries that incorporate this theme through case studies and other forms, particularly proposals that are rooted in practical, daily workplace experiences.

The conference is accepting both in person sessions and pre-recorded, asynchronous sessions.

You may [view more information and submit a proposal here](#). Proposals are due July 15.

***Alki* Call for Papers: Winter Issue 2025 - Resiliency**

Library workers are facing exceptional challenges by modeling resourcefulness and resilience. We don't back down in the face of adversity. The winter issue of *Alki* focuses on "resiliency," a theme this journal has revisited on several occasions. Consider this theme broadly! Possible topics might include:

- How your library has adapted to the current social/political climate
- Responses to vocational awe, burnout, and your own mental health
- Your own activism
- How you deal with pressures and responsibilities in this ever-evolving profession
- Programs you've created to address tough issues
- Ways you've cared for or supported your community
- Art that responds to or shines a light on the reality of our time

We're also doing a special call for what gives you strength: **We are asking library workers to share what keeps you going, what gives you hope or strength right now?** Share a brief paragraph and we'll compile these together. Include your name, pronouns, position title, organization, and put "resiliency paragraph" in the subject line. Send these to Traci Timmons, Editor-in-Chief, at alkieditor@wla.org by October 2025.

Authors Against Book Bans is Here for Washington

A new state law prohibits schools from banning books used in curriculums solely because they were written by or about members of marginalized groups. Even so, book challenges continue to be a reality and dealing with one can be stressful. Authors Against Book Bans (AABB) in Washington State is dedicated to protecting the intellectual freedom to read and the availability of diverse voices on library shelves.

Comprised of a coalition of writers, illustrators, anthology editors and contributors, AABB offers support to librarians, teachers, and others involved in book challenges. Some of the ways members can help include:

- Writing emails and letters, sending recorded videos, and/or making phone calls to curriculum committees, school boards, and other decision-makers
- Sharing personal experiences demonstrating the importance of diverse books
- Appearing before public meetings in support of diverse books
- Sending personal messages of support (e.g., email or postcards) to individuals embroiled in challenges
